

# Program for transport workshop on box simulation comparison

Date: June 18, 2016, meeting location: BNU.

---

|                    |                |   |
|--------------------|----------------|---|
| <b>9:30-10:00</b>  | Fengshou Zhang | Welcome and introduction to the transport comparison project  |
| <b>10:00-10:30</b> | Hermann Wolter | Status of transport comparison and further steps              |
| <b>10:30-11:00</b> | Maria Colonna  | Exact limits in box calculations, and Vlasov box calculations |
| <b>11:00-11:15</b> |                | Coffee break  |
| <b>11:30-12:00</b> | Yongjia Wang   | Results for box simulations                                   |
| <b>12:00-12:30</b> |                | First discussion  |

---

12:30-14:00 Lunch

---

|                    |   |   |
|--------------------|---|---|
| <b>14:00-16:30</b> | <b>Continue the discussion, including short presentation of</b>   |   |
|                    | Akira Ono   | Box calculations in AMD                     |
|                    | Pawel Danielewicz   | Box calculations in pBUU                    |
|                    | Statements of the contributors about their box calculation results, esp. when these are either rather different or very close to the exact limits |   |
| <b>16:30-17:30</b> | Lie-Wen Chen  | Next steps for transport comparison project |

---
